Nanotechnology Summer School

5 - 9 July 2010

The Nanotechnology Summer School programme offers 5 one-day courses delivered by world-renowned experts. Delegates will have the opportunity to gain an understanding of recent advances in, impacts of and challenges for nanotechnology. Courses are offered individually, as a two-day nanomedicine course or as a one-week summer school.

- 5 July: Nanotechnology for Energy and Carbon Management
- 6 July: New Developments in Bionanotechnology
- 7 July: Nanomedicine - Diagnostics
- 8 July: Nanomedicine - Therapeutics
- 9 July: Safety of Manufactured Nanoparticles

Fee: £250 per day (discounts available for students and multiple bookings)
